

1.Click here

2. Click here to find the model asset file

Filter

IMPORT
your own
MODEL

Unload
Model

It will show you the folder address

Create a folder containing your Live2D model in the following folder:

<VTubeStudio.exe-Path> / Vtube Studio_Data / StreamingAssets / Live2DModels

The model will then show up in the model selector.

Open folder

OK

But you can also click here to open folder immediately

Now you can drop Model folder in here and start use it!

Hope you enjoy! :)
